

Save Money. Be an Environmentalist. Help Akiva. All in Two Minutes!

In an effort to enroll people in DTE's new renewable energy program, DTE is offering \$20 to organizations (like Akiva) for every one of their members (and members' friends and family) who sign up. So, as I said, you help Akiva even as you help the environment.

The real no-brainer about this is that with Michigan's recently passed energy program, all consumers will see a \$3.00 surcharge on their monthly bills beginning in January 2009. If, however, you enroll in DTE's Green Currents at a monthly charge of \$2.50, you will be exempted from the new surcharge of \$3.00. So, you actually save 50¢ a month by enrolling now!

The final icing on the cake -- the whole thing will take you less than two minutes.

1. Go to
<https://www.helpmyteam.com/helpmyteam/public/greencurrents/register/>
2. Fill out your personal information, and for School information enter:

School: Akiva Hebrew Day School
Team: General Fund
City: Southfield
State: Michigan

We would sincerely appreciate an e-mail notification of your registration to akivahelp@yahoo.com. That way we can keep track of how much money we should expect back from DTE.

That's it! Of course, we encourage you to pass this on to everyone you know who wants to save money, save the planet, and help our school!

Thank you,
Dr. Howard Korman
President of Akiva Board
